## EDUCATION

---

### International Burch University

*Bachelor's Degree in Information Technology*

Sarajevo, Bosnia and Herzegovina

*Oct. 2023 – Present*

## EXPERIENCE

---

### Comp-IT Ltd., Sarajevo, Bosnia and Herzegovina

Oct. 2025 – Dec. 2025

*Software Development Intern*

- Built internal workforce operations tool (web + mobile) with secure access, attendance tracking, and streamlined approvals.
- Developed RESTful API backend with JWT authentication and role-based access control.
- Designed responsive web interface with React and cross-platform mobile app using React Native.
- Implemented PostgreSQL database for employee records, attendance, contracts, approvals, and additional workflows.
- Focused on end-to-end reliability, usability, and streamlined operational processes.

## PROJECTS

---

### ShungiteX Banking App (Mobile Project) | Kotlin, Jetpack Compose, SQLite, Figma

Mar 2025 – May 2025

- Developed mobile banking app in Kotlin using Jetpack Compose for account balances, transactions, and multiple credit/debit cards.
- Designed UI and user flows in Figma to enhance user experience.
- Implemented persistent SQLite storage and smooth navigation between screens.
- Collaborated with team of 4, contributing login, home, and transactions screens.
- **Project Repository** [GitHub Link](#)

### Respawn Shop - E-commerce Web Application

*PHP, FlightPHP, MySQL, JavaScript, HTML/CSS, Bootstrap*

Jan 2025 – Apr 2025

- Developed full-stack e-commerce web app for gaming merchandise with user authentication, product browsing, cart, and checkout.
- Implemented RESTful API backend in PHP/FlightPHP with JWT authentication and server-side input validation.
- Designed frontend using JavaScript, HTML/CSS, and Bootstrap 5 for responsive, interactive design.
- Built MySQL database managing users, products, transactions, reviews, and admin functions.
- Managed version control with Git and tested API endpoints using Postman.
- **Project Repository on GitHub**

### Workforce Management System - Internal Operations Tool

*Java Spring Boot, React, React Native, PostgreSQL, REST API, Vite*

Oct 2025 – Dec 2025

- Developed web and mobile apps for employee attendance, approvals, and reporting during internship at Comp-IT Ltd.
- Built secure RESTful API backend with JWT authentication and role-based access.
- Designed responsive web interface with React and cross-platform mobile app using React Native.
- Implemented PostgreSQL database for employee records, attendance, contracts, approvals, and additional workflows.
- Delivered end-to-end solution focused on reliability, usability, and streamlined operational processes.

## TECHNICAL SKILLS

---

**Languages:** Java, C++, Python, SQL, HTML/CSS, JavaScript, Kotlin

**Frameworks/Libraries:** React, Node.js, Jetpack Compose

**Tools:** Git, IntelliJ IDEA, VS Code, Logisim, DBeaver, Figma, Wireshark

**Concepts:** OOP, Data Structures, Algorithms, Database Design, Operating Systems, Computer Networks
